Oh, damit wird ja meine Altersgruppe angesprochen. Genauso wie bei den sinnvollen Werbungen auf MTV und VIVA. 😊

Man will ja helfen, und nachdem mich sowohl Geschichte als auch Englisch interessieren...

The Holocaust is a considerable event of our history because I think that it still shapes the worldwide image of the Germans very strong today. It gives us also the knowledge about what can happen if antipathy against a particular population group cumulates and the awareness that it is necessary to hold acceptance of all humans up in order to support a fair society.

In school I went through the Holocaust during the 9th grade by learning about its background, its procedure and its results. I've also been visiting the Dachau concentration camp several times with the school and with the parish.

To be honestly, it was sadly used to make jokes about the victims of the Holocaust when I was a child. But in my parents' house the incidents have been clarified early and earnestly, so that myself was able to respect the victims.

edit: Bavarian student, nearly 17 years 😊

Zufrieden? 😊

Ich hoffe mir sind keine bösen Fehler unterlaufen.

Und viel Erfolg auch von mir.
