

Aus dem Benelux: Batavia

Beitrag von „Faantir Gried“ vom 30. Mai 2012, 13:20

I fear most of our nations here prefer to play more conservative as set in a 20th to early 21st century. Some nations on the OIK map though have claimed to colonize the moon and mars (Tir na nÒg and Wolfenstein). Aside from these there is [an almost dead science fiction mn project](#) which is set in the far future with different races.

Ideas . . . Ideas for what exactly?
