

# Aus dem Benelux: Batavia

**Beitrag von „Frederic Aichberger“ vom 30. Mai 2012, 15:24**

I like the idea of Space travel for lots of German MN have their own space programs.

If you want to colonize you should try the [OIK](#). If you stick to their bureaucratic rules you should get a spot on the map for your colony without any trouble.

What is your world like? What does it require to become citizen of your country?
